| <input type="checkbox"/> Hospitals, clinics or managed care organizations | <input type="checkbox"/> Other: |

Background on the intervention:

The Oregon Social Learning Center (OSLC) Treatment Foster Care program recruits and trains foster families to house and care for youths with a history of juvenile delinquency. The goal of the program is to provide delinquent adolescents who need out-of-home care with the following: close supervision, fair and consistent limits, predictable consequences for rule-breaking, a supportive relationship with at least one adult mentor, and reduced exposure to delinquent peers.

Findings from the systematic reviews:

The Office of Educational Research and Improvement (OERI) cites OSLC Treatment Foster Care as an exemplary Safe, Disciplined, and Drug-Free Schools program. See the link below for more information.
